Religious Exemptions

Are you looking for a religious or medical exemption? Then you should explore what faith means to you? Lean about your rights and examples of how to write an exemption for yourself based on YOUR faith.

United We Stand - Divided We Fall

Join Us

We are a community of concerned citizens gathering virtually and meeting in-person to maintain our natural born freedoms to self-

determination.

Together we will maintain our natural rights that are upheld by case law and defined in the US Constitution.

Coercion does not foster informed consent and does not negate ones faith in their beliefs. United We Stand!

Meet New People

We want to give people in New Jersey hope! You are not alone in believing that we have a right to live freely.

Whether you believe your immune system protects you or you do not want to intentionally harm your God given body, you are not alone.

Together we will create the future we envision for our NJ Community Members.

Volunteer with Us!

We are a grassroots organization working for the future of New Jersey!

If you have a particular skill set such as social media reach or wanting to take a more active role in your community send us a message.

Take action to create change with us, learn to advocate with our community, and together we will prevail.
